OBJECTIVE

As an experienced Developer specializing in Management Information Systems (MIS), I have developed a strong skill set in designing, developing, and maintaining high-performance web applications. With a solid understanding of **microservices architecture, RESTful APIs, and agile methodologies**, I have contributed to multiple projects, enhancing their scalability and efficiency.

I am committed to **teamwork** and **mentoring junior developers**, ensuring continuous growth and collaboration within my team. My expertise spans various programming languages, including **Java, Python, JavaScript, and C#**, and I am well-versed in both **front-end and back-end development**.

I am passionate about using **technology to solve real-world problems and drive innovation**, with a focus on delivering robust and efficient solutions. My education integrates business and technology expertise, allowing me to develop strong decision-making and problem-solving capabilities. Through multidisciplinary coursework in IT, finance, and marketing, I have strengthened my leadership and organizational skills.

EDUCATION

YEDİTEPE University İstanbul,Turkey

Management Information Systems

GPA: 2.13/4.00 ,100% English

The program offers a contemporary education model that emphasizes project-based learning through the flipped learning instructional system. Conducted entirely in English, it actively promotes teamwork and holds ABET accreditation. Additionally, I have undertaken specialized training in Backend Web Development with Java and .NET Core, expected to be completed in 2024. My Java training covers Object-Oriented Programming (OOP) principles, web server deployment with Tomcat and Jetty, RESTful API development, and database integration with MySQL and PostgreSQL.

ANADOLU University (Open Education Faculty) Eskişehir, Turkey

International Relations Turkish Program

This program provides a comprehensive understanding of global political, economic, and social systems, equipping students with the theoretical knowledge and practical skills necessary to analyze complex international issues. Emphasis is placed on international diplomacy, political analysis, and global governance, while students gain in-depth insight into geopolitical dynamics, international organizations, and multilateral cooperation. The curriculum includes specialized courses on international law, foreign policy, conflict resolution, human rights, and global security challenges, fostering critical thinking, research, and negotiation skills. Students are also trained in cross-cultural communication, policy evaluation, and strategic decision-making, preparing them for careers in international organizations, governmental institutions, non-governmental organizations (NGOs), and global policy advisory roles.

Projects

- **C:** Product Management System
- **Python, MySQL, HTML, CSS, JavaScript:** Grocery Store App
- **Java:** Snake Game, The Shortest Path Between Cities, Candy Game
- **Logisim:** 8-bit Multi Cycle CPU Design and Implementation
- **Kotlin:** Mobile Expense Tracker App – Developed an Android app to track personal expenses, featuring local database storage, charts for expense visualization, and notification reminders.
- **Cloud (AWS & Azure):** Serverless Event Booking System – Built a cloud-native application using AWS Lambda, API Gateway, and DynamoDB; deployed scalable backend services for event management and integrated with Azure Functions for cross-platform notifications.
- **Kotlin & Cloud:** Cloud-Connected Weather App – Created an Android application in Kotlin that fetches real-time weather data from a cloud-hosted RESTful API, implements caching in Firebase, and allows push notifications for weather alerts.

Technical Skills

Programming Languages:
Java (intermediate), Python (intermediate), C (intermediate), JavaScript (intermediate), TypeScript, C++, SQL, HTML, CSS (intermediate), Node.js, C#, MySQL

Software & Frameworks:
Microsoft Office (advanced), Git, GitHub, TCP/IP, DNS, HTTP, VPN, RESTful API, Spring Boot, Hibernate, Tomcat, Jetty,Linux(basic)

Cloud Technologies:
AWS, Azure, Google Cloud Platform (GCP)

Integrated Development Environments (IDEs):
PyCharm, Eclipse, Visual Studio Code,Linux(Kali),Visual Studio

LANGUAGE SKILLS & INTERESTS

- **Languages:** Turkish – Native, English – C1 ,German -Basic

CERTIFICATIONS & TRAININGS

Cisco Networking Academy – Introduction to Cybersecurity
Issued: May 2026 | Credential ID: e6b7b919-0dc0-40f8-ade8-edee92bc5cef

- Acquired foundational knowledge of cybersecurity concepts, threats, vulnerabilities, and risk management.
- Learned security best practices for protecting networks, systems, and data.
- Developed awareness of cyber attack methodologies and defense strategies.
- Explored cybersecurity career paths and industry frameworks.

Skills: Cybersecurity, Network Security, Risk Management, Information Security

Etkin Kampüs – Basic Canva Training
Issued: March 2026

- Developed practical skills in Canva for digital content creation.
- Designed presentations, social media visuals, and marketing materials.
- Applied visual communication and branding principles.
- Improved creativity and content design capabilities.

Skills: Canva, Graphic Design, Visual Communication, Content Creation

Vodafone – One Day at Vodafone: Network
Issued: March 2026 | Credential ID: 097cc296-5bb2-46e1-aa04-898b9ba821ed

- Gained insights into telecommunications network infrastructure.
- Learned fundamentals of cloud technologies, DevOps, and network operations.
- Explored enterprise-scale networking environments.
- Developed understanding of digital transformation in telecom systems.

Skills: Networking, Cloud Computing, DevOps, Telecommunications

BTK Akademi – Introduction to Software Testing
Issued: February 2026 | Credential ID: 9XrtqlN0kk

- Gained foundational knowledge in software testing methodologies.
- Learned test case design and defect management processes.
- Studied Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC).
- Developed manual testing and quality assurance skills.

Skills: Software Testing, Quality Assurance, SDLC, STLC, Test Case Design

BTK Akademi – Mobile Security and Penetration Techniques
Issued: February 2026 | Credential ID: L8dcNqL7gy

- Learned mobile application security fundamentals.
- Studied common Android vulnerabilities and attack vectors.
- Explored penetration testing methodologies and OWASP Mobile Top 10.
- Improved cybersecurity awareness and secure coding practices.

Skills: Mobile Security, Penetration Testing, OWASP Mobile Top 10, Cybersecurity

Türkiye Rüzgar Enerjisi Birliği (TÜREB) – Entrepreneurship and Business Idea Development
Issued: December 2025

- Developed entrepreneurial thinking and innovation skills.
- Learned business model generation and feasibility analysis.
- Explored startup ecosystem fundamentals.
- Improved project presentation and idea validation competencies.

Skills: Entrepreneurship, Business Development, Innovation Management

Turkcell Geleceği Yazanlar – Basic Linux
Issued: September 2025

- Learned Linux operating system fundamentals and command-line operations.
- Applied file management, permissions, and process control techniques.
- Gained practical experience with system administration basics.
- Strengthened infrastructure and DevOps-related knowledge.

Skills: Linux, System Administration, Shell Commands, DevOps Fundamentals

Patika.dev – Test Automation Pathway
Issued: July 2025

- Developed automated test solutions using Selenium and JUnit.
- Conducted API testing using Postman.
- Applied regression testing and automation frameworks.
- Improved software quality assurance processes.

Skills: Selenium, JUnit, Postman, Test Automation, API Testing

Huawei Enterprise Türkiye – Huawei Cloud DevOps Bootcamp
Issued: April 2025

- Gained hands-on experience with CI/CD pipelines.
- Worked with Docker, Kubernetes, and GitHub Actions.
- Implemented cloud-native deployment strategies.
- Applied DevOps automation and monitoring practices.

Skills: DevOps, Docker, Kubernetes, CI/CD, GitHub Actions, Cloud Computing

Patika.dev – Kotlin Mobile App Development Pathway
Issued: April 2025

- Developed Android applications using Kotlin.
- Integrated REST APIs and Firebase services.
- Applied mobile UI/UX principles.
- Managed application lifecycle and debugging processes.

Skills: Kotlin, Android Development, Firebase, REST APIs

Patika.dev – Beginner Level Frontend Web Development Pathway
Issued: March 2025

- Built responsive web applications using HTML, CSS, and JavaScript.
- Applied Bootstrap and DOM manipulation techniques.
- Developed modern and user-friendly interfaces.
- Improved frontend development practices.

Skills: HTML5, CSS3, JavaScript, Bootstrap, Frontend Development

Huawei – Huawei Cloud Acceleration Program
Issued: December 2024

- Learned cloud infrastructure and virtualization concepts.
- Explored IaaS and PaaS service models.
- Studied cloud networking and storage solutions.
- Developed practical cloud computing knowledge.

Skills: Cloud Computing, Huawei Cloud, Virtualization, Infrastructure Management

Patika.dev – .NET Core Development Pathway
Issued: October 2024

- Developed backend applications using C# and .NET Core.
- Applied Entity Framework and SQL Server integration.
- Implemented RESTful APIs and dependency injection.
- Improved backend architecture and performance optimization skills.

Skills: C#, .NET Core, Entity Framework, SQL Server, REST APIs

Patika.dev – Java Backend Web Development Pathway
Issued: August 2024

- Developed enterprise-level backend applications using Java and Spring Boot.
- Implemented RESTful APIs and database integrations.
- Applied Hibernate ORM and authentication mechanisms.
- Conducted unit and API testing.

Skills: Java, Spring Boot, Hibernate, MySQL, PostgreSQL, REST APIs

LEADERSHIP EXPERIENCE AT YEDİTEPE

Huawei Student Developers – Content Team Lead
(December 2024 – Present)
Led a team of content creators to elevate the club's digital presence and member engagement through strategic content production and management.

- Strategic Content Development: Developed and executed a data-driven content strategy aligned with club objectives, significantly increasing reach and engagement across digital platforms.
- Team Leadership and Quality Assurance: Mentored and led a team of content creators, providing guidance and support to ensure all output maintained high technical quality, accuracy, and brand compliance.
- Market Analysis: Conducted continuous research on industry trends, technology competitions, and competitor content to ensure the club's material remained relevant, competitive, and innovative.

Patika Perspective – Organization Team Member
(February 2024 – Present)
Actively contributed to the end-to-end planning and execution of club events, prioritizing inclusivity and operational efficiency.

- Inclusive Event Execution: Actively contributed to the planning and successful execution of club events and activities, ensuring all operations adhered to principles of inclusivity and diversity.
- Operational Collaboration: Collaborated with team members to organize events with impartiality and openness, fostering an environment where individuals from diverse backgrounds felt valued and respected.

Kızılay & TEMA Foundation – Multi-faceted Volunteer
(November 2023 – Present)
Engaged in core humanitarian aid (Kızılay) and environmental protection (TEMA) activities, developing skills in logistics, flexibility, and community outreach.

- Dual-Sector Engagement: Served simultaneously in two major non-profit organizations, demonstrating flexibility, strong time management, and proactive prioritization.
- Humanitarian Logistics (Kızılay): Participated in the operational phases of blood donation drives and disaster relief efforts (sorting/packaging), gaining experience in rapid collaboration and teamwork under pressure.
- Environmental Action (TEMA): Contributed to tangible environmental protection efforts, including participation in afforestation and tree-planting events (e.g., *mention the number of events or trees planted if possible*), and engaged in awareness campaigns requiring effective public communication.

WORK EXPERIENCE

Software Development Intern

EduBridge Base
Jan 2025 – Dec 2025 · 1 yr
Türkiye · On-site

- Contributed to the development of an AI-powered education platform designed for underserved communities.
- Assisted in backend API development using RESTful architecture principles.
- Supported database design and SQL query optimization.
- Participated in frontend component development and UI improvements.
- Conducted API testing using Postman and assisted in debugging processes.
- Collaborated in Agile sprint meetings and feature planning sessions.

Skills: Java, Spring Boot, SQL, REST APIs, Git, Agile Development

Enterprise Resource Planning (ERP) Intern

Kaytazdere Municipality
May 2025 – Sep 2025 · 5 mos
Altınova, Yalova, Türkiye · On-site

- Supported ERP system implementation across Finance, HR, and Public Works departments.
- Conducted workflow analysis and assisted in digital transformation processes.
- Performed system testing for newly integrated modules.
- Assisted in generating analytical and financial reports.
- Collaborated with IT teams to improve system efficiency and integration.

Skills: ERP Systems, Process Analysis, System Testing, Digital Transformation, Reporting

QA & Software Testing Intern

University-Based Technology Lab
Jul 2025 – Oct 2025 · 4 mos
İstanbul, Türkiye · On-site

- Designed and executed manual test cases for web applications.
- Developed Selenium-based automation scripts for UI testing.
- Performed API testing using Postman.
- Reported and documented bugs following SDLC standards.
- Participated in regression and integration testing processes.
- **Skills:** Selenium, JUnit, Postman, API Testing, SDLC

VOLUNTEER EXPERIENCE

Kızılay & TEMA Foundation – Multi-faceted Volunteer
(Nov 2023 – Present)
Actively engaged in humanitarian aid (Kızılay) and environmental protection (TEMA) initiatives, leveraging strong organizational skills and a commitment to social responsibility across diverse projects.

- **Dual-Sector Engagement and Project Support:**
  - Simultaneously managed responsibilities across two major non-profit organizations, demonstrating **flexibility, strong time management, and effective prioritization**.
  - Provided essential logistical, organizational, and operational support to ensure the seamless execution of campaign events.
- **Humanitarian Aid & Emergency Preparedness (Kızılay):**
  - Assisted in the planning and execution of **blood donation drives** (e.g., *mention the number of campaigns if possible, e.g., 'over 5 campaigns'*), contributing to public health awareness and resource collection.
  - Participated in disaster relief and aid efforts (e.g., sorting and packaging relief supplies), enhancing skills in **rapid teamwork and effective collaboration under pressure**.
- **Environmental Conservation and Sustainability (TEMA):**
  - Contributed to hands-on environmental projects, including participation in **afforestation and tree-planting events** (e.g., *mention the number of events or trees planted if possible*), actively promoting biodiversity and fighting erosion.
  - Engaged in environmental awareness campaigns, utilizing **strong public communication and presentation skills** to educate the community on climate change and sustainability.
- **Education and Social Awareness:**
  - Supported the development and delivery of **educational programs and workshops** aimed at raising awareness among the public on critical social and environmental issues.
  - Collaborated closely with volunteer teams, employing a **solution-oriented approach** to achieve collective goals and maximize campaign impact.
